1. The 1950 harvest in Czechowlovakia will be very small because of the excessive dryness of the camer; at the present time, it seems probable that the harvest will be only about 60 percent of that expected earlier. Because of this, Seeds are taying all the fluor available on the free market, thus causing a scarsity which is already apparent in the stores. 2. Farmers are being punished by heavy fines and imprisonment for fulfilling only to 75 percent their gots for the planting of beets. Large areas of land have gone unplanted by the state-operated farms and by the United Agricultural Cooperatives leaves of the lack of farmbands. 3. Meat imported from Rumania and the USSR is in some cases of such poor quality that it cannot be processed for use in Czechoslovakia. Beneatically produced met is either experted to the Eastern zone of Germany or is caused for the army. All "free' cattle must be reserved for scanning, but cince the cannot leave the eastern zone of the remains on the ferms or in the agricultival cooperatives. This document is hereby regraded to CONFIDENTIAL in accordance with the little of 16 Cotober 1978 from the Director of Central Intelligence to the Archivist of the United States.
